

Dear Student Care Fund Donors,

It is with extreme gratitude that I say "Thank you."

My wife and I have needed to replace the tires on our car for several months. Winter driving had become rather challenging even for someone who hails from the Snow Belt just south of Cleveland, Ohio. Safety is always a priority and proper tires help provide better traction and handling.

We received a grant from the Student Care Fund to purchase four new tires. What a wonderful gift! Only a few evenings ago my wife and I had been discussing options to buy tires. We were told that some funds were available to help students with financial needs including transportation issues such as car repair and tires. What wonderful timing!

The only repayment we can offer you is our sincere thanks. We pray God's continued blessing upon your hearts. We thank God that you have so graciously provided support to Concordia Theological Seminary in Fort Wayne so that, in turn, they can pass along your gifts to those students who are in need. Please know that we will be forever grateful.

Blessings,

**Ryan Pumphrey**
